Model: HC-810 - Electronic Hot/Cold Strip Cutting Machine

The HC-810 automatically cuts and seals synthetic materials without fraying. Nylon cord can also be cut. This machine is delivered equipped with a time delay feature which allows the time which the knife is down to be controlled for cutting very thick materials.

Model: HC-861 - Digital Strip Cutter Machine - 8 inch Hot/Cold

Same specs as the HC-810 but with 2 heavy duty heating elements (850 watts each) and 2 extra inches. It gives you the capacity to cut more webbing at the same time.
