

Heavy Duty Falcon End Cutter

Eastman®

Over a Century of Cutting Expertise

The Eastman Heavy Duty Falcon 548 End Cutter with the Easy Glide Track allows the cutting head to move easily across the track, with little or no effort, thereby reducing operator fatigue. The Heavy Duty 548 Falcon End Cutter was developed to ensure smooth, trouble-free operation when cutting heavy materials, such as canvas, cotton backed vinyl, non-wovens and most industrial textiles. The Quick Lift and Air Lift options allow the operator to lift the track and clamp material between spreads. The Quick Lift is a manually operated, mechanical device designed with simplicity and ease of installation in mind.

The new optional Air Lift feature allows the operator to lift the track with the flip of a switch, reducing operator fatigue and cycle time.

Eastman Heavy Duty Falcon 548 End Cutter with Easy Glide Track and Quick Lift.

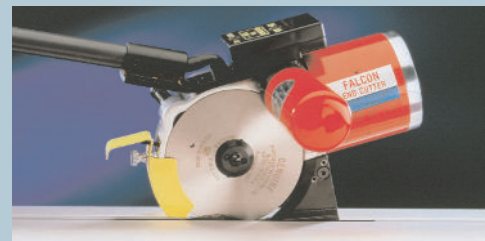

Eastman Air Lift Feature

SPECIFICATIONS

Weight	21 lbs. (9.52 kg)
Horsepower	.34 hp, 1ph / .48 hp, 3 ph
Blade Size	5" (12.5 cm)
Cutting Capacity	1" (2.5 cm)
Motors	110v, 1 ph / 220v, 1 ph / 220v, 3 ph
Sharpener Stone Grits	120 Heavy, 150 Medium, 200 Fine
Standard Blade	Carbon Steel
Optional Blades	Double Bevel, Teflon Coated, High Speed Steel, Grooved
Single Speed	Standard slow speed, (dual speed not available)
Track Size	48 in. (120 cm) - 144 in. (360 cm)
Options	Air Lift (50-90 psi required) Cloth Alignment Bar

Eastman offers a complete line of track cutting machines for panels and sheeting. From the Standard Falcon IV and Falcon 534 to the Heavy Duty Falcon 548, Eastman also offers a full line of automatic track cutters including the Auto Track Falcon II and Auto Track Falcon IIP Pneumatic.

Falcon IV / Model FAL-4
